DETAILED ACTION

Allowable Subject Matter

Claims 16-18 and 20-22 have been renumbered as 1-6 respectively.

Claims 1-6 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Ikata et al., US patent No. 5,351,041, discloses a method of data communication in communication network. Ikata does not teach or fairly suggest the following feature, which is recited in the independent claim 1:

A method for coordinating network components including at least one first logical component and at least one second logical component, comprising the steps of:

establishing a communications connection;

transmitting an information message;

comparing the information of the transmitted information message;

coordinating the at least one second logical component on the application plane by the at least one first logical component as a function of a result of the comparison wherein:

the step of coordinating includes causing the at least one first logical component to reconstruct an application state of the at least one first logical component and of the at least one second logical component that was present before the step of establishing by using the information of the transmitted information message and the information stored in the second non-volatile memory of the at least one first logical component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
